About

Product designer with 6 years of B2B and enterprise experience, specializing in turning complex, multi-stakeholder workflows into clear and scalable user experiences. Background in cross-regional product design serving global markets. Actively integrates AI tools (Cursor, Claude Code, GPT) into daily practice, including building AI workflows to support user research and design quality control.

Work Experience

Nov 2022 - Present	Product Designer TikTok Enterprise Service and Efficiency Dubai, United Arab Emirates - Led an end-to-end redesign of Supplier Portal sourcing (research → product strategy → UX/UI), shifting suppliers from email threads to an email-to-portal workflow with compliance gating and clearer task states; increased online sourcing adoption from 3.9% to 19.92% (target 15%). - Rebuilt the Business Travel mobile request experience to strengthen policy control and decision context. Supported by user research and competitive benchmarking, scaling adoption to 31.02% of employees and 22.68% of requests and driving ~21.1M RMB estimated annual savings. - Shipped a 0→1 hotel booking map experience on web for 100K+ employees; contributed to 24% of orders via map-based search and reduced booking flow time by 9% (~9s). - Owned currency i18n guidelines and co-maintained i18n standards (currency, date/time, English writing). Shipped code-backed components and built an AI-assisted Figma QA plugin (Cursor + GPT), adopted/referenced by 10+ internal design teams and 20+ product lines.
Mar 2020 - Nov 2022	Product Designer SmartX Beijing, China - Designed core admin workflows for CloudTower (enterprise HCI management), spanning VM lifecycle, monitoring, network topology, and backup/recovery. - Translated ambiguous infra requirements into shippable UX through task models, state/permission matrices, and error/empty-state rules for high-risk operations. - Created scalable patterns and reusable UI modules in collaboration with engineers, improving design consistency across multiple console surfaces.

Education

2018 - 2019	Master of Design, Interaction Design California College of the Arts San Francisco Bay Area, USA
2013 - 2017	Bachelor of Science, Retail Merchandising University of Minnesota, Twin Cities Minneapolis, Minnesota, USA
