

Claire Han

Product Designer at ByteDance

Location	Dubai (Open to relocate)	Email	clairehan4869@gmail.com
Portfolio	clairehan.cc Built with Cursor+Claude Code	Mobile	+971 501356896

Product designer with 6 years of B2B and enterprise experience, turning complex, high-stakes workflows into clear, scalable user experiences. Cross-regional background serving global markets; integrates AI tools (Cursor, Claude Code) into daily practice to support user research and design QA.

Work Experience

Product Designer ByteDance | CIS Enterprise Service and Efficiency Nov 2022 - Present
Dubai, United Arab Emirates

PROCUREMENT

- Led end-to-end redesign of Supplier Portal sourcing (research → product strategy → UX/UI), shifting suppliers from email threads to a portal workflow with compliance gating; online sourcing adoption from 3.9% to 19.92% (target 15%).
- Conducted the procurement system's first comprehensive Coupa competitive analysis and presented findings team-wide, establishing a benchmark for subsequent iterations and directly shaping the acceptance module's design direction.

BUSINESS TRAVEL

- Rebuilt the Business Travel mobile request experience to strengthen policy control and decision context. Supported by user research and competitive benchmarking, scaling adoption to 31.02% of employees and 22.68% of requests and driving ~21.1M RMB estimated annual savings.
- Shipped a 0→1 hotel booking map experience on web for 100K+ employees; contributed to 24% of orders via map-based search and reduced booking flow time by 9% (~9s).

INTERNATIONALIZATION · CIS GLOBAL DESIGN STANDARDS

- Owned the CIS Global Design Standards program serving employees worldwide; led the i18n system (currency, date/time, English writing) and built a long-running cross-product-line iteration mechanism. Shipped i18n-checker Skill (packaging standards and 1,900+ glossary entries into Cursor, Claude Code, and internal AI platforms), turning documentation into executable review capability; adopted by 10+ design teams and 20+ product lines.

Product Designer SmartX Mar 2020 - Nov 2022
Beijing, China

- Designed core admin workflows for CloudTower (enterprise HCI management), spanning VM lifecycle, monitoring, network topology, and backup/recovery.
- Translated ambiguous infra requirements into shippable UX through task models, state/permission matrices, and error/empty-state rules for high-risk operations.
- Created scalable patterns and reusable UI modules in collaboration with engineers, improving design consistency across multiple console surfaces.

Education

Master of Design, Interaction Design California College of the Arts 2018 - 2019
San Francisco Bay Area, USA

Bachelor of Science, Retail Merchandising University of Minnesota, Twin Cities 2013 - 2017
Minneapolis, Minnesota, USA

Skills

Languages	English, Mandarin
Design	Figma, Prototyping, User Research, Design Systems, Enterprise UX
AI & Tools	Vibe Coding, Claude Code, Cursor, Building AI workflows
